

Polypropylene line

Single and Balanced flue

Single polypropylene line

APPLICATION / USAGES

Combustion gas evacuation for condensation systems.

System pipes for domestic residual water evacuation and sanitary use.

Ventilation systems as reflected by the regulation UNE EN 14471.

Rainwater evacuation systems.

REGULATIONS

EN 14471 T120 P1 O W2 O20 I E L

MATERIALS

LOCALIZATION

Wall
Finishings

DESCRIPTION

Polypropylene
Whites - Pipes and parts
Black - Anti UV and terminals
Grey - Flexible pipes

250 MM STRAIGHT PIPE		M-F-M TEE	
500 MM STRAIGHT PIPE		INSPECTION TEE	
1000 MM STRAIGHT PIPE			
2000 MM STRAIGHT PIPE			CONDENSATION COLLECTOR TEE
3000 MM STRAIGHT PIPE			
HORIZONTAL UV-RESISTANT FINAL SECTION		CONDENSATION COLLECTOR PIPE	
		WALL CLAMP WITH LAG-SCREW	
STAINLESS STEEL CAP		FINISHING COLLAR	
FLEXIBLE PIPE		VERTICAL PIPE REDUCTION	
45° ELBOW		VERTICAL PIPE ENLARGEMENT	
87° ELBOW		HORIZONTAL PIPE ENLARGEMENT	

Coaxial polypropylene line

APPLICATION / USAGES

Combustion gas evacuation for condensation systems.
 System pipes for domestic residual water evacuation and sanitary use.
 Ventilation systems as reflected by the regulation UNE EN 14471.
 Rainwater evacuation systems
